Overview

The Coordinating Board for Higher Education was authorized by an amendment to the Missouri Constitution in 1972 and established by statute in the Omnibus State Reorganization Act of 1974. The nine board members, one from each congressional district, are appointed by the governor and confirmed by the Senate. The term of appointment is six years. No more than five of the nine members may be affiliated with the same political party, and members serve without compensation. As authorized in Section 173.005, RSMo, the Coordinating Board is the head of the Department of Higher Education.

The Department of Higher Education carries out the goals and administrative responsibilities of the Coordinating Board for the state system of higher education. The state's system of higher education serves more than 406,000 students through 13 public four-year university campuses, 19 public two-year college campuses, 1 public two-year technical college, 25 independent colleges and universities and 151 proprietary schools.

The department's primary responsibilities include:

- identification of statewide needs for postsecondary education,
- statewide planning for postsecondary education (including independent institutions),
- evaluation of student and institutional performance,
- review of institutional missions,
- establishment of admission guidelines consistent with institutional missions,
- administration of a performance funding program encouraging the achievement of statewide priorities,
- submission of a unified annual budget request for public higher education to the governor and General Assembly,
- administration of a statewide postsecondary technical education program,
- approval of new degree programs offered by public colleges and universities,
- establishment of guidelines to promote student transfer among postsecondary institutions,
- policy setting for and the administration of state and federal student financial assistance programs, and
- administration of the Proprietary School Certification Program.

2. CORE DESCRIPTION											
This core decision item includes \$553,633 and 10.57 FTE for Coordination.											
CBHE has the leadership responsibility for higher education in Missouri. The CBHE and the Department of Higher Education conduct studies of population and enrollment trends; develop arrangements for more effective and more economical specialization among institutions and programs; encourage more effective mutual support and coordination among institutions; identify higher education and labor force needs; and design a coordinated plan for higher education in the state and in its sub-regions. In doing so, the CBHE focuses on participation, completion, and affordability.											
This request is for general revenue appropriation funding of \$487,386 and 8.49 FTE and \$66,247 federal and 2.08 FTE necessary to provide leadership responsibility for higher education. This request also includes a core reduction from other funds of 4 FTE plus \$144,365 personal service dollars and \$14,388 in E&E funds.											
To enhance full mission review responsibilities and to continue development and implementation of a funding formula for the state system of higher education, a new decision item is being requested for 4.75 additional FTE.											
.07 FTE in general revenue is being transferred to OA for mailroom consolidation. \$954 in general revenue is being transferred to EE from OA employee benefits for mail consolidation services. \$1,812 in general revenue is being reallocated from PS to EE for mailroom consolidation.

3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.		
Three additional staff are needed in the Academic Affairs area to collect and manage data on participation and performance, interpret data, develop evidence-based policy initiatives to improve the overall higher education system and evaluate the effectiveness of existing public policies. Because of FTE cuts to the department, there has not been sufficient staff to undertake the full mission review responsibility. These additional staff will help to undertake this responsibility. In addition these personnel will also be working with the development of performance measures, implementation and monitoring state-level assessment policy associated with student learning gains, and design and implementation of an associate-degree transfer scholarship. Duties will also include building a more effective transfer/articulation system, and activities targeted to improve preK-20 teacher quality and student performance.		
An additional FTE is being requested to continue development and implementation of a funding formula for the state system of higher education. This position would focus on the institutions' fiscal performance. Research of expenditures, efficiency strategies, and other fiscal practices will be reviewed at the public institutions by this position.		
With budget reductions over the last five years, personal service dollars have been stretched to meet current payroll needs. Many department employees are being paid a portion of their salary from other funds. In order to reduce the department reliance on other funds DHE is requesting additional general revenue funds to switch funds back to general revenue.

<p>A key responsibility of the CBHE, through the DHE, is to certify and monitor proprietary schools, including out-of-state institutions offering programs in Missouri. This request is comprised of personal service expenditures of \$104,513 for 2.08 FTE and expense and equipment expenditures of \$24,093. These expenses from the General Revenue Fund are partially offset by the collection of certification fees that are deposited into general revenue.</p> <p>The average annual revenue generated by the collection of certification fees for the last five years is \$122,553.</p>

PROGRAM DESCRIPTION

Department of Higher Education

Proprietary Schools

Program is found in the following core budget(s): Proprietary Schools Administration

1. What does this program do?

This program is the mechanism by which the DHE certifies and monitors proprietary and certain other types of postsecondary education institutions offering programs in or recruiting students from Missouri. This core funding supports a system to implement minimum education standards for private career schools and out-of-state institutions offering postsecondary education in the state. The program's intent is to ensure students receive training consistent with the published objectives of the course or programs of study, adequate and reliable information is available to currently enrolled and prospective students, and that there are the financial and educational safeguards required by the authorizing statute.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Section 173.600 - 173.619, RSMo

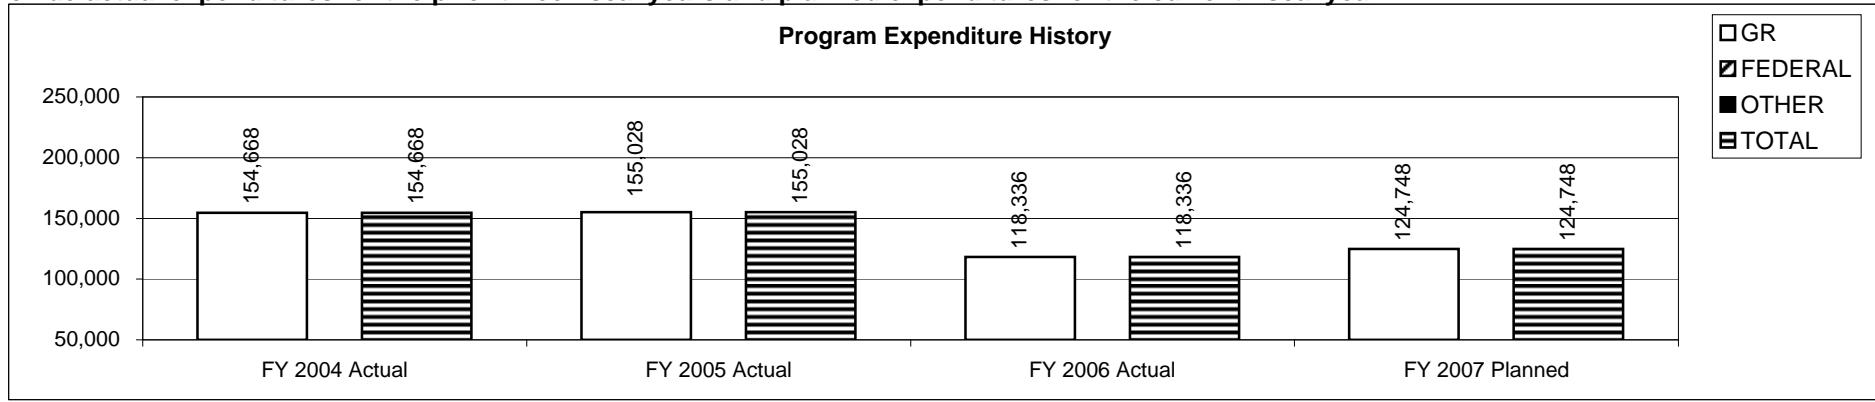

3. Are there federal matching requirements? If yes, please explain.

No

4. Is this a federally mandated program? If yes, please explain.

No

5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.

2. CORE DESCRIPTION																																																																														
<p>The DHE administers seven state student financial assistance programs that provided \$41.8 million to 25,470 eligible Missouri residents during FY 2006. This request is for general revenue appropriation funding of \$106,465 and 2.00 FTE necessary to administer the seven state funded financial assistance programs. To assist with the anticipated increase in financial assistance programs and the GEAR UP program, a new decision item is being requested for one additional FTE, the reallocation of four FTE from other funds, and an additional \$10,500 in expense and equipment general revenue appropriation funding.</p>

3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.			
<p>A Program Specialist is needed to help with the anticipated increase in financial assistance programs as requested for three current programs. In addition this position would assist with the ongoing administration of scholarships for students who have completed the GEAR UP program which will no longer have FTE funded with federal dollars after the contract expiration in September 2007.</p> <p>General revenue funding is also needed for the four existing positions and related expenses to lessen the reliance on other funds.</p>			
4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)			
<p>1 FTE - A Program Specialist is needed to handle the anticipated increase in financial assistance programs as requested for three current programs and the GEAR UP program. The salary range for a Program Specialist is \$26,964 to \$37,896.</p> <p>4 FTE - A Director at \$58,000, an administrative assistant at \$30,408, a student assistant associate at \$38,616, and a program specialist at \$32,076 currently work in the program but are paid with other funds. This request would be a reinstatement of general revenue funds from federal and other funds.</p> <p>An additional expense and equipment request for \$10,500 in general revenue appropriation funding is necessary to continue operations of the current financial assistance programs and GEAR UP program.</p> <p>The expense and equipment request is detailed below.</p>

PROGRAM DESCRIPTION

Department of Higher Education

Midwestern Higher Education Compact

Program is found in the following core budget(s): Midwestern Higher Education Compact

1. What does this program do?

This program pays the membership dues in the Midwestern Higher Education Compact (MHEC). The purpose of the MHEC compact shall be to provide greater higher education opportunities and services in the Midwestern region with the aim of furthering regional access to research in the choice of higher education for the citizens residing in the states which are party to this compact. Membership allows Missouri to participate in a student exchange program with other states allowing residents to receive out-of-state instruction at 150 percent of in-state tuition rates. The membership also offers other benefits such as joint purchasing agreements for obtaining insurance and telecommunications products and services.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Section 173.700, RSMo

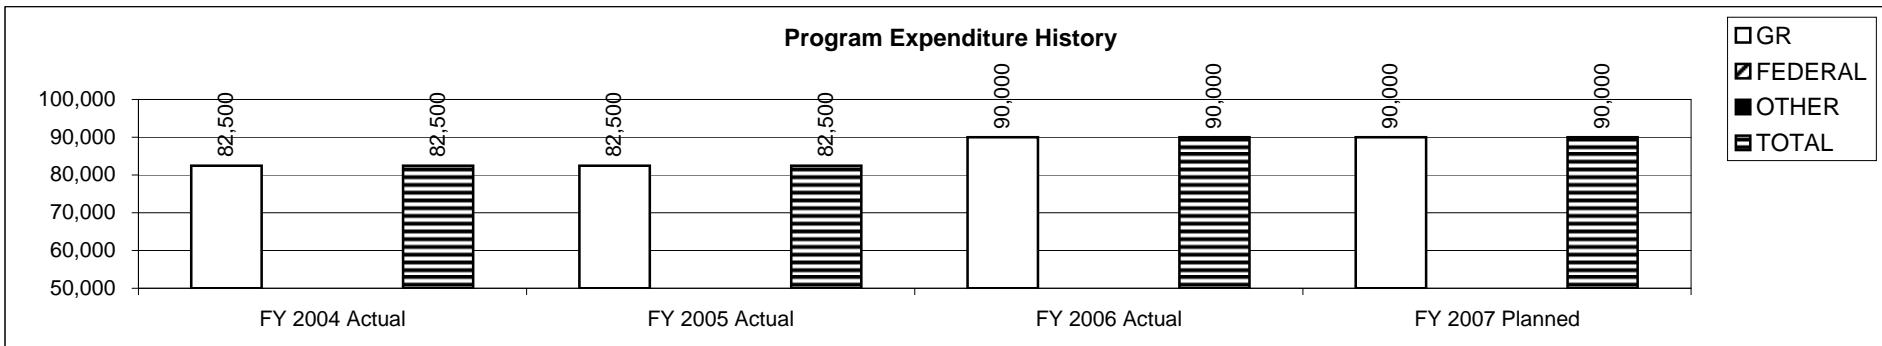

3. Are there federal matching requirements? If yes, please explain.

No

4. Is this a federally mandated program? If yes, please explain.

No

5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.

6. What are the sources of the "Other " funds?

2. CORE DESCRIPTION																																																				
<p>The core request of \$1,778,746 in federal funds is from a U.S. Department of Education grant to enhance K-12 teacher education in the core subjects. Under the No Child Left Behind Act of 2001, federal funds are allocated to states using a formula that is based on 65 percent K-12 student poverty level and 35 percent K-12 student population. Based on this formula, \$49,109,213 was allotted to the state of Missouri for FY 2006, and 1 percent is shared by the Department of Elementary and Secondary Education (DESE) and the DHE for administrative purposes. The funds are distributed as follows:</p> <ul style="list-style-type: none"> • • 94.1 percent of these funds (\$46,211,769) will be made available to school districts; • 3.3 percent of these funds (\$1,618,834) will be available for DESE to be used for state-level activities; and • 2.6 percent of these funds (\$1,278,610) will be available for DHE to administer through a competitive grant process. <p>In consultation with DESE, the DHE has made a strategic decision to use its funds to focus on professional development of Missouri's K-12 teachers in mathematics and/or science. Thus, these funds will be awarded to projects designed by partnerships (partnerships will include higher education institutions, local schools/school districts, and others) to improve mathematics and/or science education in grades 4-12. In FY 2008, the DHE will utilize 1.0 FTE for this program.</p>

PROGRAM DESCRIPTION

Department of Higher Education

Improving Teacher Quality Grant

Program is found in the following core budget(s): Improving Teacher Quality Grant

1. What does this program do?

This program focuses on professional development of Missouri's K-12 teachers in core subject areas. These funds will be awarded to projects designed by partnerships between colleges of education, colleges of arts and sciences, and high-need K-12 schools to improve student learning in grades K-12. Each year, a request for proposals specifies which core subjects and grade levels will be involved in that cycle.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Section 173.050(2), RSMo; Title II, Part A, of the Elementary and Secondary Education Act: No Child Left Behind Act of 2001, Public Law 107-110.

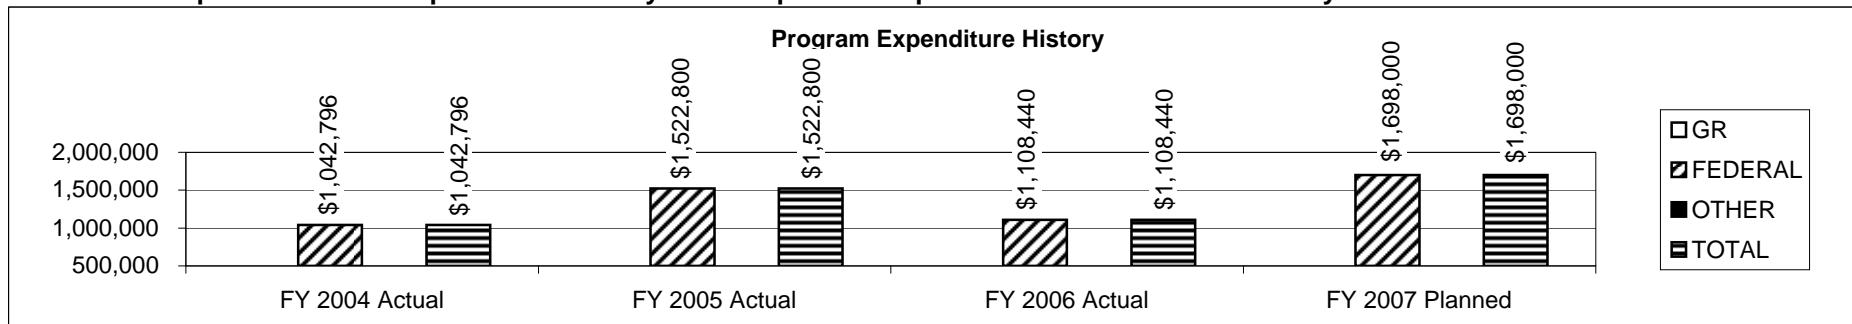

3. Are there federal matching requirements? If yes, please explain.

No

4. Is this a federally mandated program? If yes, please explain.

Yes, federal funds are allocated to the states under Title II Part A of the Elementary and Secondary Education Act (also known as the No Child Left Behind Act of 2001) to enhance professional development of K-12 teachers in core subjects.

5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.

6. What are the sources of the "Other" funds?

N/A

PROGRAM DESCRIPTION

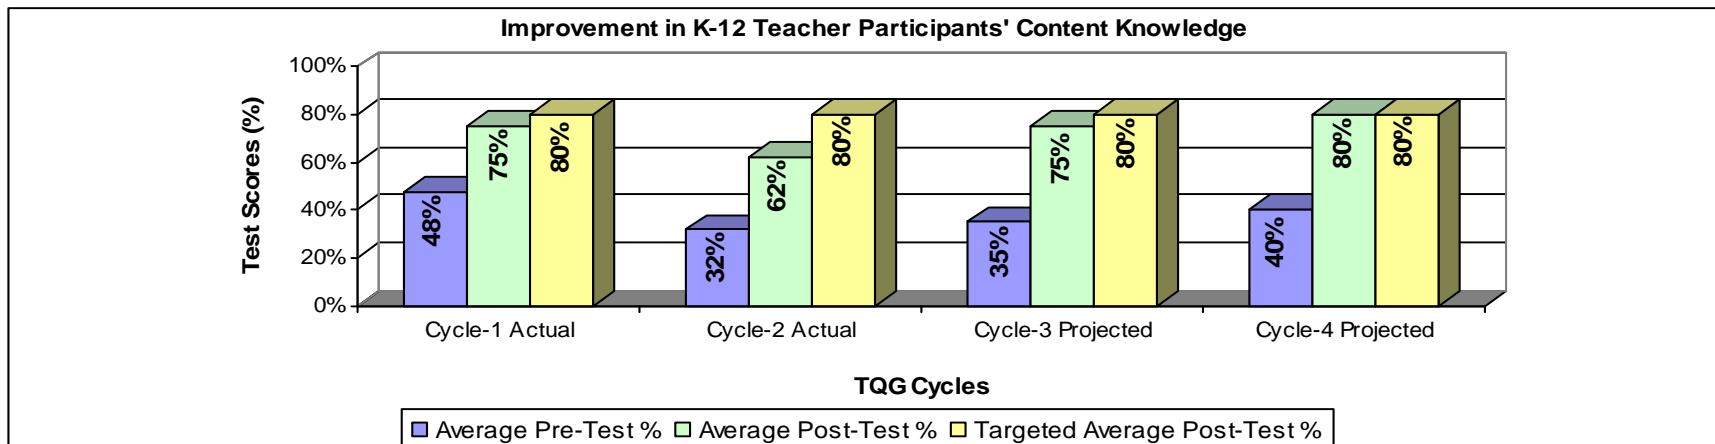

Department of Higher Education

Improving Teacher Quality Grant

Program is found in the following core budget(s): Improving Teacher Quality Grant

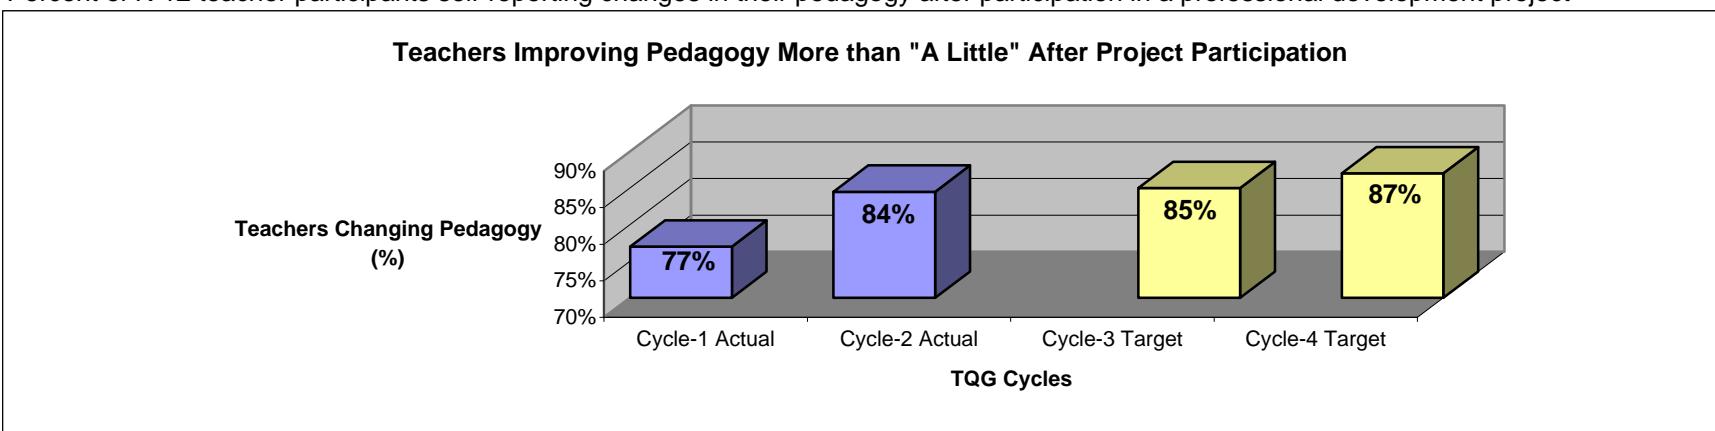

7a. Provide an effectiveness measure.

Percent of improvement in K-12 teacher participants' content knowledge (as measured by project specific pre-test and post-test scores)

Actual results based on content knowledge pre- and post-tests administered to teacher participants; Cycle 3 results due November 2006.

Percent of K-12 teacher participants self-reporting changes in their pedagogy after participation in a professional development project

Satisfaction surveys asked participating teachers how much their teaching improved as a result of learning in 12 different component areas. Cycle-3 results due November 2006.

PROGRAM DESCRIPTION

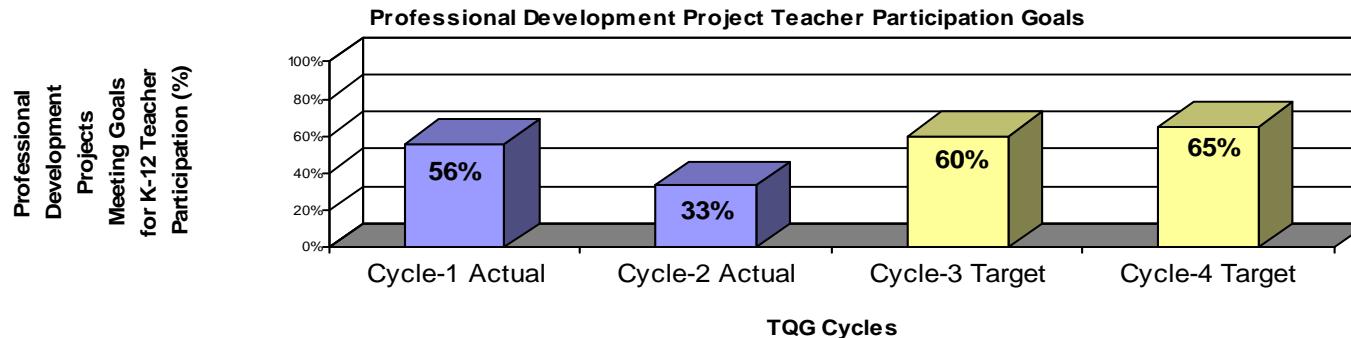

Department of Higher Education

Improving Teacher Quality Grant

Program is found in the following core budget(s): Improving Teacher Quality Grant

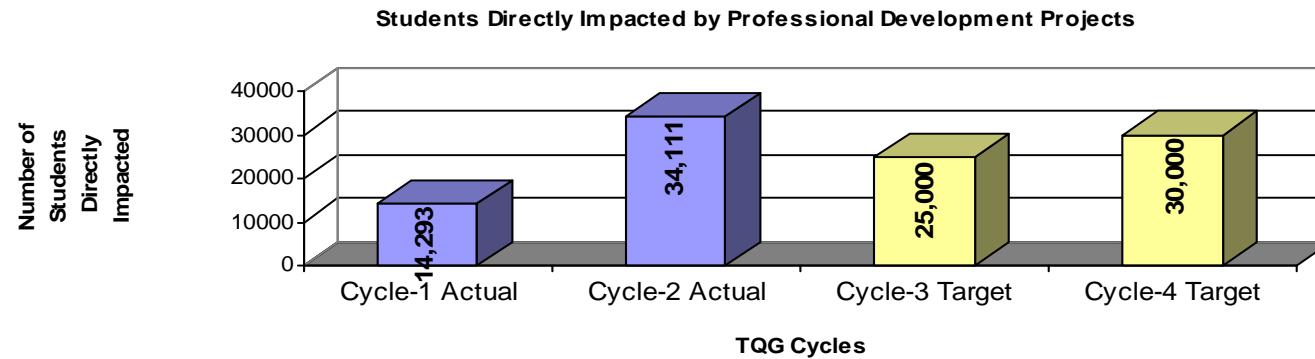

7b. Provide an efficiency measure.

Percent of professional development projects meeting their K-12 teacher participation goals

7c. Provide the number of clients/individuals served, if applicable.

Number of K-12 students directly impacted by the enrollment of K-12 teachers in improving teacher quality professional development projects

Direct impact reflects number of students in classes of professional development teacher participants. Cycle 3 results due November 2006.

Cycles 3 and 4 may include school administrators and pre-service teacher education students. These changes are expected to initially decrease the number of teacher participants and, therefore, an initial decrease in the number of students directly impacted.

PROGRAM DESCRIPTION

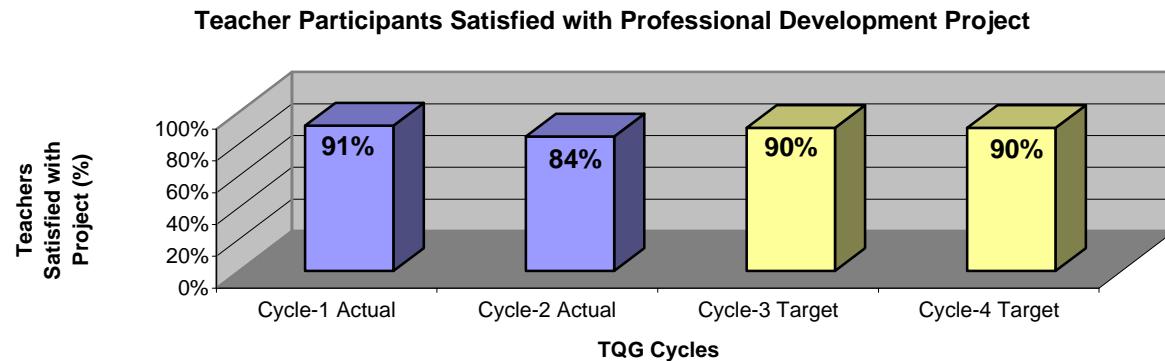

Department of Higher Education

Improving Teacher Quality Grant

Program is found in the following core budget(s): Improving Teacher Quality Grant

7d. Provide a customer satisfaction measure, if available.

Percent of K-12 teacher participants indicating satisfaction with participation in an improving teacher quality professional development project

Cycle-1 data based on average response to question on value of PD components -- avg ≥ 5 means satisfied.

Cycle-2 data based on average response to question on value of PD components -- avg > 3 means satisfied.

Cycle 3 results due November 2006.

<p>The Missouri Higher Education Academic Scholarship Program (also known as "Bright Flight"), provides scholarships based on academic achievement. The scholarship award is \$2,000 annually until the first bachelor's degree is received or ten semesters, whichever occurs first. To qualify, a Missouri high school senior must score in the top 3 percent on the ACT or SAT college entrance exams. For the 2006-07 academic year the qualifying composite test scores are the following: ACT 30 or SAT math 780 and SAT verbal 780.</p>																														
<p>The core request of \$15,987,000 will continue to provide scholarships to approximately 8,400 students. Since there are additional students eligible for this program, \$15,987,000 is no longer sufficient appropriation authority and a supplemental request for \$372,000 is being submitted.</p>

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)									
<p>Currently, funding for this program and the College Guarantee program, which is the other major need-based aid program administered by the DHE, is less than sufficient. In an effort to increase funding for both programs while maintaining the approximate 2:1 ratio in the appropriations for both programs, an additional \$18,000,000 is being requested for this program. This will nearly double the Gallagher funding from \$18,157,854 to \$36,157,854.</p>

2. CORE DESCRIPTION																																																		
<p>This program is designed to provide need-based financial aid to eligible Missouri residents. A student's financial need is calculated based on the standard federal needs analysis formula. Based on the total cost of attendance at the school the student is attending, funds are awarded to students who demonstrate the highest financial need until all funds are expended.</p>																																																		
<p>The projected number of students to receive awards is 13,800 under this core request for an average award of approximately \$1,315. The core transfer is from general revenue, federal, and private sources totaling \$18,157,854.</p>																																																		
<p>Because current funding only allows DHE to fund approximately 19 percent of all eligible Gallagher program applicants, a new decision item is being requested for an additional \$18,000,000 to meet the demands of students with financial need.</p>

<p>The DHE has the statutory responsibility to administer the Charles E. Gallagher Student Financial Assistance Program under Section 173.200, RSMo. Based on the current funding, the DHE is only able to fund approximately 19 percent of all eligible Gallagher program applicants. The requested increase is from general revenue totaling \$18,000,000. The increase would fund an additional 13,688 students with financial need.</p>

2. CORE DESCRIPTION																																																		
<p>This program is designed to provide need-based financial aid to eligible Missouri residents. A student's financial need is calculated based on the standard federal needs analysis formula. Based on the total cost of attendance at the school the student is attending, funds are awarded to students who demonstrate the highest financial need until all funds are expended.</p>																																																		
<p>The Missouri College Guarantee Program is authorized by statute to receive \$4.5 million from the Gaming Commission Fund; however, if the balance of the Gaming Commission Fund annnuly exceeds \$28 million, an additional \$500,000 may be transferred to the Missouri College Guarantee Fund.</p>																																																		
<p>This request is for core spending authority of an estimated \$9,155,582 from the Missouri College Guarantee Fund for scholarships as provided in Section 313.835, RSMo.</p>																																																		
<p>Because current funding only allows DHE to fund approximately 20 percent of all eligible Missouri College Guarantee program applicants, a new decision item is being requested for an additional \$8,790,000 to meet the demands for students with financial need.</p>

PROGRAM DESCRIPTION

Department of Higher Education

College Guarantee Program

Program is found in the following core budget(s): College Guarantee Program

1. What does this program do?

This program is designed to provide financial aid to undergraduate Missouri residents who demonstrate financial need and have achieved the statutory required academic criteria, such as standardized assessment scores, G.P.A. and participation in extracurricular activities.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Section 173.810, RSMo

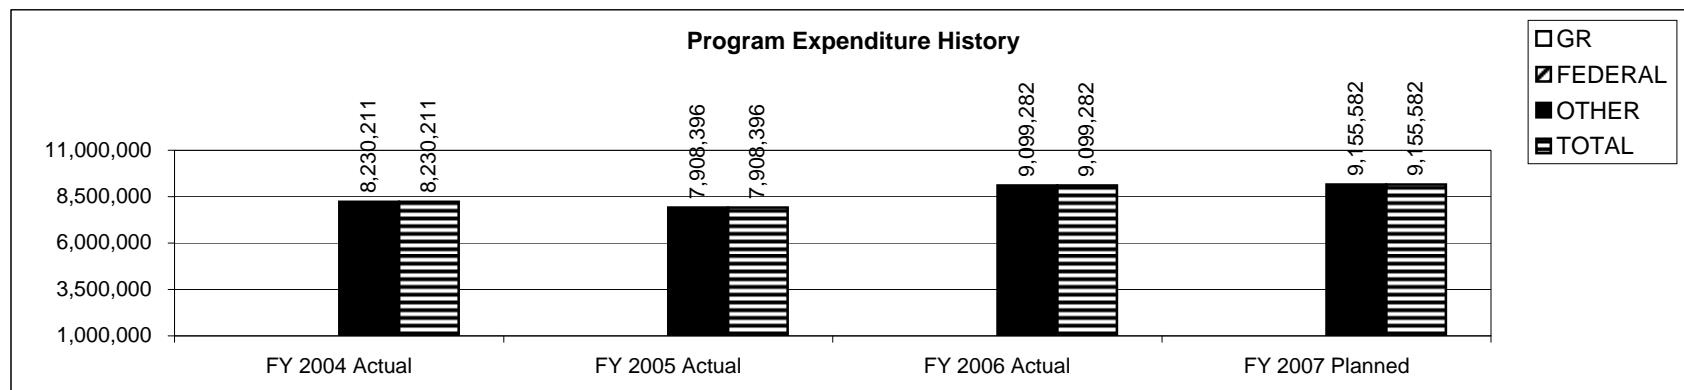

3. Are there federal matching requirements? If yes, please explain.

No

4. Is this a federally mandated program? If yes, please explain.

No

5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.

6. What are the sources of the "Other" funds?

Missouri College Guarantee Fund (0858)

3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.

The DHE has the statutory responsibility to administer the College Guarantee Program under Section 173.810, RSMo. Based on the current funding, the DHE is only able to fund approximately 20 percent of all eligible College Guarantee Program applicants. The increase would fund an additional 4,306 students with financial need.

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFF fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

Currently, funding for this program and the Charles Gallagher Program, which is the other major need-based program administered by DHE, is less than sufficient. In an effort to increase funding for both programs while maintaining the approximate 2:1 ratio in the appropriations for both programs, an additional \$8,790,000 is being requested for this program. This will nearly double the College Guarantee funding from \$9,155,582 to \$17,945,582.

2. CORE DESCRIPTION																																																																														
<p>This request is for FY 2008 spending authority in the amount of \$1,664,365 to administer a federal GEAR UP grant. The grant award is for a total of \$8.4 million over a six-year period. The department has been awarded a federal GEAR UP grant that will help improve the educational attainment of Missouri citizens by providing early college preparation and awareness activities to participating students through comprehensive mentoring, counseling, outreach and other support services. The GEAR UP grant program requires that 50 percent of the state's award be used for scholarships. This request allows the department to issue approximately 210 scholarships for the 2007-2008 school year. In FY 2008, the request is for spending authority of \$1,464,365 in federal funds and \$200,000 for the GEAR UP Scholarship fund. In order to meet future demand for scholarships, a new decision item is being requested for an additional \$500,000.</p>

PROGRAM DESCRIPTION

Department of Higher Education

GEAR UP Grant

Program is found in the following core budget(s): GEAR UP

7a. Provide an effectiveness measure.

7b. Provide an efficiency measure.

The U. S. Department of Education (USDE) requires all GEAR UP grantees to submit an Annual Performance Report (APR). The APR includes information on the grant program expenditures, matching grant funds, student cohort enrollment and school data, and defined measurements and activities related to obtaining the GEAR UP grant goals and objectives. The USDE reviews the APR to evaluate the progress of the GEAR UP grant and to see if the grant is administered efficiently. This APR evaluation process is also used by the USDE to determine continued funding for future years of the grant award. The GEAR UP Missouri grant has been awarded funding for each year since the initial GEAR UP grant award to the state of Missouri in FY 2001. As a result, the GEAR UP Missouri grant has demonstrated the ability to be efficient and thus is an overall success.

6. PERFORMANCE MEASURES (If new decision item has an associated core, separately identify projected performance with & without additional funding.)

6a. Provide an effectiveness measure.

6b. Provide an efficiency measure.

The GEAR UP Missouri grant has provided students with the ability to meet scholarship eligibility requirements. This is evident in the increasing number of scholarships being awarded.

6c. Provide the number of clients/individuals served, if applicable.

7. STRATEGIES TO ACHIEVE THE PERFORMANCE MEASUREMENT TARGETS:

Provide students with assistance in completing college applications, scholarships, and FAFSA forms, along with other forms necessary for applying to postsecondary schools. Offer direct counseling services focused specifically on increasing the number of GEAR UP students who apply to and are accepted at both 2- and 4-year postsecondary schools. The projected number of scholarship recipients enrolled in college is expected to be 210 for FY2008.

The DHE Student Loan Program is a guaranty agency for the Federal Family Education Loan (FFEL) program. The DHE student loan program guaranteed over \$1.1 billion in student loans in fiscal year 2006 and total outstanding guaranteed loan balances of over \$3.3 billion at June 30, 2006. The core request is \$11,807,357 in spending authority from the Guaranty Agency Operating Fund and 50.02 FTE to administer this program. This request also includes a core reduction of \$75,006 and .75 FTE to reduce the department reliance on loan funds to pay a number of FTE with split salary assignments. There is a corresponding new decision item in Coordination Administration asking for an increase in general revenue funds for \$64,159 and .75 FTE, and a second corresponding new decision item in Grant/Scholarship Administration requesting an additional \$10,847 in general revenue funds.									
.18 FTE in other funds is being transferred to OA for mailroom consolidation. \$2,484 in other funds is being transferred to EE from OA employee benefits for mail consolidation services. \$4,719 in other funds is being reallocated from PS to EE for mailroom consolidation.

PROGRAM DESCRIPTION

Department of Higher Education

Missouri Student Loan Administration

Program is found in the following core budget(s): Loan Program Administration

1. What does this program do?

The DHE Student Loan Program is a guaranty agency for the Federal Family Education Loan (FFEL) program. As a guaranty agency, this program insures private lenders of Federal Stafford, PLUS and Consolidation student loans from losses due to default at 98 percent and due to loan discharge at 100 percent. The DHE Student Loan Program guaranteed over \$1.1 billion in student loans in state fiscal year 2006 and total outstanding guaranteed loan balances of over \$3.3 billion at June 30, 2006. In addition to insuring lenders, another important role of the guaranty agency, acting as the US Department of Education's agent, is to ensure that FFEL program participants including post-secondary institutions, lenders, secondary markets, servicers and student loan borrowers comply with all applicable federal laws and regulations. Also of critical importance to the FFEL program is the guaranty agency's efforts with respect to default prevention and aversion, as well as default collection. The agency provides collections assistance to loan holders and counseling assistance to borrowers when a borrower becomes more than 60 days delinquent on their student loan. The loan program also provides post-secondary institutions with default prevention grants, in-person training sessions, training materials, student counseling materials, and electronic entrance and exit counseling for borrowers. Yet another significant role of the guaranty agency is to collect on defaulted student loans to keep the cost of the FFEL program as low as possible. The DHE Student Loan Program utilizes a variety of collection methods to recover defaulted loans including administrative wage garnishment, state tax refund offset, US Treasury offset, regular borrower payments, loan rehabilitation and loan consolidation.

The DHE Student Loan Program performs services for various stakeholders throughout the life of a student loan. At the time of origination the DHE provides a state of the art web based loan origination, guarantee and disbursement system that is used by post-secondary institution financial aid staff, lenders and their servicers, and Missouri students and parents. The system performs various federally required compliance checks instantly to provide real-time loan guarantees for Missouri borrowers and their lenders, which significantly speeds up the student loan financial aid delivery process. The chart titled "Students Utilizing DHE Loan Guarantee" found in section 7c shows that the DHE Student Loan Program guaranteed new Federal Stafford and PLUS loans for over 74,000 students. Those 74,000 students took out over 165,000 loans totaling over \$641 million.

In addition to providing guarantees on new student loans for students the DHE Student Loan Program also guarantees Federal Consolidation loans for borrowers who want to extend the repayment term of their loan to make payments more affordable. The number of consolidation loans guaranteed by the DHE Student Loan Program has been growing due to two factors 1) the increasing level of debt students must incur to complete their education and 2) the historically low student loan interest rates. In state fiscal year 2006, over 13,000 borrowers had their Federal Consolidation loans guaranteed by the DHE Student Loan Program. Those 13,000 borrowers took out over 20,000 loans worth over \$461 million.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Federal Higher Education Act of 1965, as amended, 20 U.S.C. 1071, et seq.; 34 C.F.R. Parts 658 and 682; Sections 173.095 - 173.187, RSMo.

<p>U.S. Department of Education regulations require all guaranty agencies to deposit all funds collected from defaulted borrowers into the Federal Fund within 48 hours of collection or reimburse the federal government for interest that should have accrued to the Federal Fund. Collection agencies are now required to transmit all collections to DHE and then submit invoices for their fees. This requirement necessitates continuing estimated appropriation authority of \$4,000,000 in federal loan funds from the Guaranty Agency Operating Fund. In addition, spending authority of \$500,000 in federal funds from the Guaranty Agency Operating Fund is necessary to provide a mechanism for paying penalties determined under the change in federal rules.</p>

PROGRAM DESCRIPTION

Department of Higher Education

Federal Loan Compliance

Program is found in the following core budget(s): Federal Loan Compliance

1. What does this program do?

This program is necessary to comply with U.S. Department of Education regulation because collection agencies are required to transmit all collections from defaulted borrowers to DHE and then submit invoices for their fees. This appropriation request is part of the DHE Student Loan Program. The DHE Student Loan Program pays these collection commissions (actually called contingency fees) with the DHE's Operating Fund share of collection revenues described in the Collection Payments Transfer appropriation authority request. As shown in the DHE Collections Recovery Rate chart in section 7a, the DHE Student Loan Program exceeds industry averages in collecting on defaulted student loans. In federal fiscal year 2005, the program collected over 25 percent of its outstanding defaulted student loan portfolio and has already exceeded that recovery rate in federal fiscal year 2006. Commission Costs Per Operating Fund \$ Collected in section 7b shows the decline in costs from 32 cents per \$ collected in FY 2005 to 30 cents per \$ collected in FY 2006.

<p>The Higher Education Amendments of 1998 require guaranty agencies to deposit certain percentages of payments received from defaulted borrowers into the Federal Student Loan Reserve Fund and the Guaranty Agency Operating Fund. This request for an estimated \$8,000,000 in spending authority is necessary to enable the DHE to transfer the appropriate amount of collections from and on behalf of defaulted borrowers, initially deposited in the Federal Student Loan Reserve Fund, to the Guaranty Agency Operating Fund as required by the Amendments. This request actually relates to revenues from collection activity performed by the guaranty agency. However, because collection revenues must first be deposited in the Federal Fund, which is property of the federal government, the monies must be transferred to the Operating Fund. The DHE did not transfer collections payments from the Federal Student Loan Reserve Fund to the Guaranty Agency Operating Fund during the end of FY05 and all of FY06 in order to maintain adequate cash reserves to purchase loans. However, the DHE plans to resume the transfers during FY07. Estimated spending authority of \$8,000,000 in federal funds is required to transfer the appropriate amounts to the Guaranty Agency Operating Fund. No general revenue funds are requested.</p>

Student Loan Collection Payments

Program is found in the following core budget(s): Collection Payments Transfer

1. What does this program do?

This appropriation authority request, which is part of the DHE Student Loan Program, enables the DHE to transfer the appropriate amount of collection revenues from and on behalf of defaulted borrowers, initially deposited in the Federal Student Loan Reserve Fund, to the Guaranty Agency Operating Fund as required by federal law. In federal fiscal year 2005, the DHE Student Loan Program and its contractors collected over \$40 million from defaulted borrowers on a defaulted loan inventory of \$150 million. While the majority of these collection revenues are the property of the US Secretary of Education, the DHE Student Loan Program retains from 18.5 to 23 percent (depending on the collection type) of these revenues to pay collection related expenses, which includes collection agency commissions and other collection related expenses as described in the Federal Loan Compliance appropriation authority request. During part of FY 2005 and all of FY 2006, the DHE did not transfer collections to the Guaranty Agency Operating Fund in order to maintain adequate cash reserves in the Federal Student Loan Reserve Fund. However, the DHE plans to resume the transfers during FY 2007. The DHE Student Loan Program pays collection commissions with the DHE's Operating Fund share of collection revenues described in this request. In federal fiscal year 2005, the program collected over 25 percent of its outstanding defaulted student loan portfolio and has already exceeded that recovery rate for federal fiscal year 2006. The chart titled Cost of Commission Per Operating Fund \$ Collected in section 7b shows a decline in costs from 32 cents per \$ collected in FY 2005 to 30 cents per \$ collected in FY 2006. The US Secretary's share of these collections serves as the revenue source to the Federal Fund, which is described in the Federal Student Loan Reserve Fund appropriation authority request.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

2. CORE DESCRIPTION																																																																	
<p>The Higher Education Amendments (HEA) of 1998 require guaranty agencies to deposit certain percentages of payments received from defaulted borrowers into the Federal Reserve Fund, which is the property of the federal government. All amounts collected from defaulted borrowers are first deposited into the Federal Reserve Fund, with DHE's portion transferred out into the Guaranty Agency Operating Fund on a quarterly basis. Due to reconciling items, it is sometimes necessary to transfer funds back to the Federal Fund. In addition, the HEA also requires the DHE to ensure that the Federal Reserve Fund has cash flow sufficient to pay claims to lenders and meet federally mandated reserve levels. This request for an estimated appropriation of \$1,000,000 is necessary to enable the DHE to transfer money to the Federal Reserve Fund from the Guaranty Operating Fund in order to make adjustments to collections from defaulted borrowers and to ensure that the Federal Fund has sufficient cash flow to meet obligations and minimum reserve levels. 2. CORE DESCRIPTION				
<p>This fund is used to purchase loans from lenders, pay default aversion fees to the Guaranty Agency Operating Fund, and reimburse monies to the federal government as necessary. The US Department of Education (USDE) currently reimburses the DHE for purchased loans at an average rate of approximately 96 percent. The DHE requests that the appropriation be classified as an estimate. The USDE requires the DHE to purchase eligible loans from lenders within 45 to 90 days of the date a lender submits the purchase request. If the DHE cannot purchase loans timely due to inadequate appropriation authority, the USDE will not reimburse the DHE for the loan purchases and may revoke the DHE's authority to act as a guaranty agency for the Federal Family Education Loan Program. An appropriation of \$85,000,000 (federal funds) is required and the DHE requests the authority to increase the appropriation as necessary. The fund is the property of the federal government. Because \$85,000,000 is no longer sufficient appropriation authority, both a supplemental request and a new decision item of \$40,000,000 each are being requested along with adding an "E" to the appropriation. The "E" is necessary in case the additional authority is not quite sufficient.</p>

PROGRAM DESCRIPTION

Department of Higher Education

Federal Student Loan Reserve

Program is found in the following core budget(s): Federal Student Loan Reserve Fund

1. What does this program do?

This appropriation request is part of the DHE Student Loan Program. This request is used to purchase defaulted and discharged student loans from lenders, to pay default aversion fees to the Guaranty Agency Operating Fund, to pay shortfalls in the federal appropriation of the account maintenance fee to the Guaranty Agency Operating Fund and to return or reimburse monies to the federal government as necessary. The fund balance related to this appropriation is the property of the federal government.

In addition to guaranteeing student loans, the DHE Student Loan Program spends considerable time and effort trying to prevent borrowers from defaulting on their student loans. The program utilizes numerous methods to reduce student loan defaults including providing assistance to lenders when a loan becomes more than 60 days delinquent. In state fiscal year 2006, the loan program provided default aversion assistance to borrowers and their lenders for nearly 53,000 loans. Preventing defaults and collecting from defaulted borrowers is a critical part of ensuring the FFEL program costs are kept low so tomorrow's students can continue to take advantage of the Student Loan Program.

As an agent of the US Department of Education, the DHE Student Loan Program insures private commercial banks against loss from defaulted and discharged student loans. Lenders are insured at 98 percent of the outstanding principal and interest at time of default for defaulted loans and 100 percent for loans discharged due to death, disability, closed school and bankruptcy. DHE must review each claim filed by a lender to ensure the lender has complied with all federal laws and regulations throughout the life of the loan to that point. If the lender fails to comply with all federal and DHE Student Loan Program guidelines, the insurance claim will be denied and the lender loses the federal loan guarantee and must try to collect the loan. In FY06, the Student Loan Program reviewed and paid over 9,500 claims. The DHE Student Loan Program is reinsured by the federal government at 95 percent on default claims and 100 percent on specialty claims.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.

This fund is used to purchase loans from lenders, pay default aversion fees to the Guaranty Agency Operating Fund, and reimburse monies to the federal government as necessary. Section 422 of the Higher Education Act of 1965, as amended (20 USC 1072) requires these expenditures as part of the DHE's responsibility as a Federal Family Education Loan Program (FFELP) guaranty agency. During the first quarter of FY 2007, the amount of loans purchased from lenders exceeded initial expectations. In order to fulfill its primary responsibility as a guaranty agency, the DHE must purchase all eligible loans from lenders and actively attempt to recover loan amounts from defaulted borrowers. The US Department of Education (USDE) requires the DHE to purchase eligible loans to lenders within 45 to 90 days of the date a lender submits the purchase request, and currently, the USDE reimburses the DHE for purchased loans at an average rate of approximately 96 percent. Inadequate appropriation authority may not allow for timely purchase of loans by DHE, in which case USDE will not reimburse the DHE for the loan purchases and may revoke the DHE's authority to act as a guaranty agency for the FFELP. Additional funding of \$40,000,000 is required and authorization to increase the appropriation as necessary is requested. No general revenue funds or FTE are requested. The fund is the property of the federal government.

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

The requested amount was derived by looking at the growth trends for the previous three years and projections based on annualized year-to-date activity for FY 2007. There are no FTE associated with this request.

The public college and university presidents and chancellors worked cooperatively to formulate an agreed upon distribution of funds for the FY08 budget recommendation for public colleges and universities.

The community colleges request is an increase of approximately 12.6 percent over the FY07 core appropriations.

This request is predicated on a commitment of public higher education institutions and CBHE/DHE to work on a future funding formula that will involve performance funding elements and address accountability.

<p>The State Plan for Postsecondary Technical Education, as required by Senate Bill 101 (1995), improves existing two-year AAS/AS degree programs and develops new programs to train high-skill, high-wage technicians for Missouri manufacturers. The FY 2008 core request of \$20,448,307 continues the CBHE's initiative to continue investing a distribution of general revenue funds to community colleges to provide statewide access to technical education and training. Annual requests for funds are reviewed and approved by the Regional Technical Education Councils (RTECs), that evaluate local program needs and manpower shortages. New programs must be reviewed and approved through the CBHE program review process. This year's request is for \$20,448,307 of general revenue. This appropriation has been transferred to the Community Colleges Core.</p>

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

The public college and university presidents and chancellors worked cooperatively to formulate an agreed upon distribution of funds for the FY08 budget recommendation for public colleges and universities.

Linn State Technical College's request is an increase of approximately 18.9 percent over the FY07 core appropriations.

This request is predicated on a commitment of public higher education institutions and CBHE/DHE to work on a future funding formula that will involve performance funding elements and address accountability.

3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.

This funding will help the institutions keep up with rising fixed cost expenditures, enhance postsecondary educational quality through achievement of institution missions and enable institutions to responsibly set tuition policies so that higher education becomes more affordable to a greater number of students.

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

The public college and university presidents and chancellors worked cooperatively to formulate an agreed upon distribution of funds for the FY08 budget recommendation for public colleges and universities.

The request for Missouri's public four-year institutions is an average increase of approximately 12.6 percent over the FY07 core appropriations.

This request is predicated on a commitment of public higher education institutions and CBHE/DHE to work on a future funding formula that will involve performance funding elements and address accountability.

PROGRAM DESCRIPTION

Department of Higher Education

Missouri Research and Education Network (MOREnet)

Program is found in the following core budget(s): MOREnet

1. What does this program do?

Established in 1991, MOREnet is a collaborative effort of the University of Missouri System, the Department of Higher Education, the Department of Elementary and Secondary Education, the Secretary of State, and the Office of Administration. MOREnet provides Internet connectivity, access to the national advanced research network (Internet2), network consulting, security and technical support, videoconferencing services and training to Missouri's elementary, secondary, and higher education communities, public libraries, health care, state government and other affiliated non-profit organizations.

The MOREnet network (the Shared Network) is the foundation infrastructure that enables delivery of numerous public services throughout the state. Members of the education community interact with each other via data and video services, public sector business applications are built and conducted on it, and Missouri citizens interact with their state government through it. An important feature of the Internet connectivity provided by MOREnet is the high speed intra-state network consisting of six leased circuits connecting several major population centers in the state. This intra-state network provides a responsiveness, robustness, level of security, and reliability of service that is essential to the quality of service necessary to promote e-government and electronic collaboration for Missourians, including video and other distance learning, the shared catalog for state academic libraries, a network of clinics providing high quality specialty medical care in rural or other underserved communities, and the sharing of online databases of information, among other initiatives.

Member connections link each MOREnet member to the shared network and the Internet. MOREnet manages nearly 1,000 member connections statewide, with House Bill 3 partially funding public higher education and public K-12 school district connections. Public library connections are funded through House Bill 12. The House Bill 3 appropriation also supports video distance learning production services, which enables Missouri's colleges, universities, schools and libraries to make their educational and training programs readily accessible to citizens and students throughout the state. MOREnet coordinates event schedules and provides technical support during the weekdays, evenings and weekends.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

MOREnet operates as a separate unit within the University of Missouri System which is authorized by both the state Constitution (Article IX, Section 9) and state statute (Chapter 172 RSMo). The MOREnet Council, consisting of representatives from the Secretary of State, Department of Higher Education, Department of Elementary and Secondary Education, the University of Missouri, the Office of Administration, local schools, libraries, and higher education, was formed in 2003 to direct and oversee planning and budgeting for the Shared Network infrastructure.

Reliability of Service: Member Network Uptime

This measurement provides information on the members' access to service, how often their connection to the Internet is up and running, and is based on average member connection uptime, adjusted for an estimate of planned outages. These uptimes are lower than actual performance because they include lag time related to updating information in the utilization reporting system when a member connection is upgraded, and they have not been adjusted to account for times connections might be unresponsive due to high member utilization or disconnection of equipment by the member.

Serving the Needs of Schools, Access for All and Support for Growth: Percent of Public K-12 Districts by Bandwidth Size

In the 2002 – 2006 Education Technology Goals and Objectives document, approved by the State Board of Education, DESE has stated that “all school administrators, teachers, staff, and students will have equitable access to education technologies that promote student performance and academic achievement”. This goal is supported through MOREnet by the provision of a minimum of one T1 (1.536 Mb) connection to the shared network to each district, with incremental bandwidth increases up to 45 Mbps for districts that have over 70 percent utilization, as established in Department of Elementary and Secondary Education's education technology strategic plan. The result is that all districts and students benefit. Students in small districts, that otherwise might be unable to afford this level and quality of service, have the same robust, reliable and secure access to educational resources available on the Internet, as students in districts with more resources. And districts with growth in demand for connectivity -- as they add additional computers to their networks, access web based resources to supplement library holdings and enhanced curriculum, interact with parents and students, and conduct business with the state -- receive the bandwidth they need.

Learning Supported by Internet Access: Number of MOREnet Supported Video Sites and Events

The reliability and security of the MOREnet network has enabled the growth in classes and courses supported by Internet access in Missouri, improving and increasing educational opportunities throughout the state. These courses include many types of delivery methods such as video classes enabled by MOREnet. Currently there is no single, consistent source of information on the number and type of courses enabled by the shared network.

Demand Growth and Cost Efficiency: Capacity and Cost per Mb

The demand for Internet access continues to grow at a rapid pace. Although there are fewer new sites being added to the network, additional workstations and greater use of electronic resources and communications by students, faculty, and staff continues to push bandwidth demand higher. In addition, the citizens of Missouri are increasing their interaction with state government via electronic transactions and communications that run across MOREnet's network. MOREnet continually seeks new ways to manage the growth in demand without adversely affecting education and government, including aggressively seeking new bids for all telecommunications circuits.

7d. Provide a customer satisfaction measure, if available.

All members contacting MOREnet technical support for assistance receive an electronic satisfaction survey following the resolution of their issues. This survey asks the member to rate MOREnet performance in five areas: staff knowledge, effectiveness of solution, timeliness of resolution, staff communication skills, and courteous service. The data shown below is averaged across all members, types of assistance, and areas of performance.

In addition to this survey data, in FY 2005 MOREnet completed a broader member satisfaction survey in which respondents rated MOREnet 9.1 on a scale of zero to 10. While satisfaction ratings were consistently high across areas of service, type of member, and size of organization, the areas in which members displayed the highest satisfaction were Internet connection reliability, technical support, security services, and general member service.

3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.	
<p>MOREnet provides Internet access and telecommunications services to elementary, secondary, and higher education communities, public libraries, and state government. MOREnet has worked hard to contain costs through administrative efficiencies, competitive bidding, and innovative methods, yet it continues to incur higher costs to deliver its services. Examples include cost increases in staff benefits, utilities, telecommunications, and information technology equipment.</p> <p>Analysis of network usage identifies two areas of significant concern that threaten the services delivered by MOREnet. One area is the demand from public higher education institutions and K-12 school districts for additional capacity for telecommunication connections that connect participating higher education institutions and school districts to the network backbone and Internet (local connections). Network usage data shows the demand for capacity grew by 44 percent for public K-12 schools and 30 percent for colleges and universities in FY 2006. The increased capacity is directly related to institutions and schools who have expanded use of high-speed local connectivity for student instruction, teacher development, parent communications, and business operations.</p> <p>Adequate capacity is necessary to continue to support the significant education advancements enabled by educational resources/tools such as class delivery by video, online information resources, web resources and research tools, and virtual field trips. These educational tools are particularly important for K-12 students who may not have access to classes or facilities due to illness, disabilities, rural locations, or under-resourced school districts, and for working adults who would not be able to pursue higher educational opportunities without courses and degree programs enabled by the Internet. Due to increasing demand, the cost of local telecommunications connections for public higher education institutions and K-12 school districts is projected to increase by \$70,000 and \$460,000, respectively in FY 2008.</p> <p>A second area of concern is the increased demand for Internet access. Through FY07, MOREnet will provide 2,488 megabit per second (Mb) capacity of Internet access in order to meet projected demand. Projections for FY08 indicate a need for the purchase of additional Internet access capacity to ensure that the network maintains adequate performance and reliability. In addition, as passed in the 2006 legislative session, SB 912 - Establishment of a Virtual School, has the potential to place greater demands on the network as the virtual school is to provide instruction in a virtual setting using technology, Intranet, and/or Internet methods of communication. Recurring costs of \$340,000 are for additional Internet bandwidth capacity to bring total Internet access capacity to 2,600 Mb. Increases in expenses of this magnitude cannot be absorbed with existing resources. Failure to supply adequate access would degrade the quality of the state's shared network, threatening the services and public benefits provided to Missouri students, library patrons, and citizens accessing state e-government initiatives.</p>

An important differentiator in the connectivity MOREnet provides is related to the intra-state connectivity, or network backbone. A robust, reliable, and secure network is essential to maintain a high-speed, high-quality channel for data and video traffic including video distance learning, and remote medical services (Telehealth). The backbone also consolidates bandwidth to contain costs. Current projections based on an analysis of backbone usage data indicate the existing backbone circuit structure has sufficient capacity to sustain growth through FY08, but growth projections beyond FY08 indicate that maintaining the current 622 Mb backbone will not be sufficient. Renewing contracts for these circuits, which expire during FY08, at the current capacity, is not feasible. The estimated one-time cost of the equipment necessary to upgrade and increase the capacity of the current backbone is \$1,320,000. Migrating to this alternative technology will provide sufficient capacity for the foreseeable future. MOREnet continues discussions with the Office of Administration and the Department of Transportation regarding use of existing fiber optic networks; however, it is not possible to predict the outcome or timeframe of any decision from these discussions. In the meantime, additional capacity is needed to continue to provide high-quality service to schools, libraries, public higher education and state agencies.

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFF fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

\$430,694 is the funding needed to keep up with increases in staff benefits, utilities, telecommunications, and information technology equipment.

Increased Cost of Meeting the Capacity Demands of Public Higher Education and K-12 Local Connections - \$530,000

Projected additional access capacity times average monthly price per Mb - Public Higher Education: 220 Mb x \$25 X 12 months = approximately \$70,000
Public School Districts: 505 Mb x \$75 x 12 months = approximately \$460,000

Note: The average monthly price per Mb for member connections continues to drop due to buying larger capacity connections. Under currently negotiated telecommunications contracts, the average cost per Mb is lower for larger capacity connections. It is these larger capacity connections that are expected to generate most of the future growth.

Increased Internet Access Capacity - \$340,000

Currently, MOREnet has four OC-12 Internet access circuits in place for a total capacity of 2,488 Mb. Growth beyond this capacity will require higher initial per Mb cost.

FY07 Internet access capacity times average estimated increase in monthly price per Mb plus FY08 growth in capacity times new monthly price per Mb (2,488 Mb x (\$70-62) x 12 months) + ((2,600-2,488 Mb) x \$70 x 12 months) = \$238,848 + \$94,080 = approximately \$340,000

Network Equipment Replacements - \$1,320,000 one-time funding

One-time equipment costs of \$1,320,000 include backbone equipment upgrades for circuit cards and three new routers.

Reliability of Service: Network Uptime (Minutes per Week)

This measurement provides information on the customers' access to service, how often their connection to the Internet is up and running, and is based on average customer downtime, excluding an estimate of planned outages. These uptimes are understated because they include lag time related to updating information in the utilization reporting system when a customer connection is upgraded, and they have not been adjusted to account for times connections might be unresponsive due to high customer utilization or disconnection of equipment by the customer.

Serving the Needs of Schools, Access for All and Support for Growth: Percent of Public K-12 Districts by Bandwidth Size

In the 2002 – 2006 Education Technology Goals and Objectives document, approved by the State Board of Education, DESE has stated that “all school administrators, teachers, staff, and students will have equitable access to education technologies that promote student performance and academic achievement”. This goal is supported through MOREnet by the provision of a minimum of one T1 (1.536 Mb) connection to the shared network to each district, with incremental bandwidth increases up to 45 Mbps for districts that have over 70 percent utilization, as established in Department of Elementary and Secondary Education's education technology strategic plan. The result is that all districts and students benefit. Students in small districts, that otherwise might be unable to afford this level and quality of service, have the same robust, reliable and secure access to educational resources available on the Internet, as students in districts with more resources. And districts with growth in demand for connectivity -- as they add additional computers to their networks, access web based resources to supplement library holdings and enhanced curriculum, interact with parents and students, and conduct business with the state -- receive the bandwidth they need.

PROGRAM DESCRIPTION

Department of Higher Education

University of Missouri Hospitals and Clinics

Program is found in the following core budget(s): University of Missouri Hospitals and Clinics

1. What does this program do?

This program funds the University of Missouri Hospitals and Clinics which provides a wide range of specialized health delivery programs.

University Hospitals, including Children's Hospital operates 465 beds. It offers total medical and surgical care for infants, children and adults and is the only facility in the primary service area with a burn unit, organ transplant services and genetic counseling services. The hospital is Mid-Missouri's only Level I Trauma Center. The emergency services program includes an air ambulance service and a ground ambulance service that offers a dedicated vehicle equipped to transport neonates and children.

Children's Hospital 55 bed "hospital within a hospital" offers a full scope of pediatric services including a dedicated pediatrics unit, a Level III neonatal intensive-care unit and a pediatric intensive-care unit.

Ellis Fischel Cancer Center provides diagnosis and treatment, detection, information, clinical research through modern diagnosis and treatment modalities, and education to health care professionals and Missouri residents regarding all aspects of cancer. These services are provided to inpatients and outpatients. Ellis Fischel Cancer Center is a statewide referral center that provides cancer services unavailable in many communities.

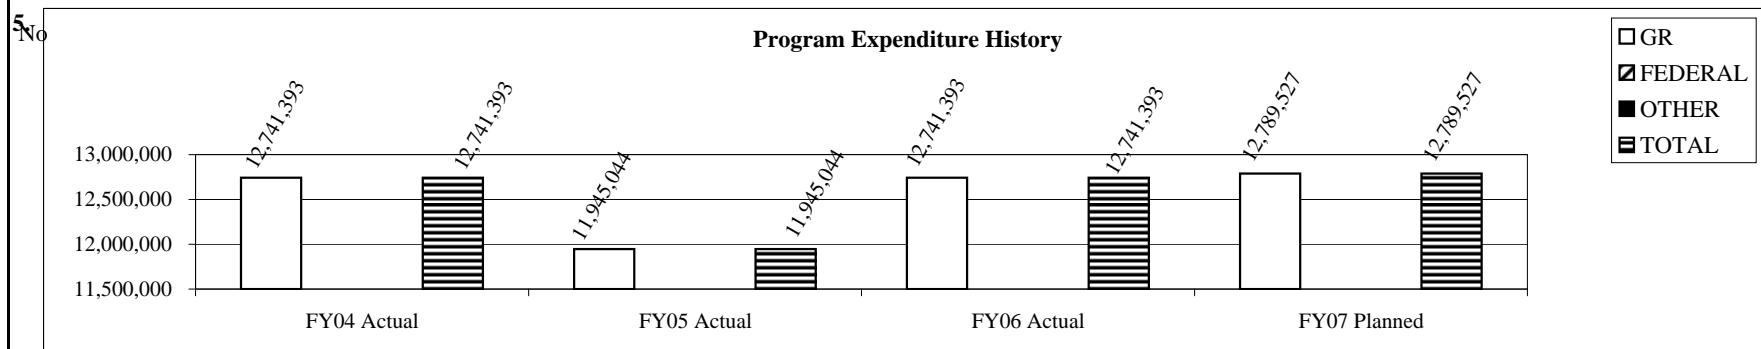

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

172.810-172.830 RSMo

3. Are there federal matching requirements? If yes, please explain.

4. Is this a federally mandated program? If yes, please explain.

No

University of Missouri Hospitals and Clinics

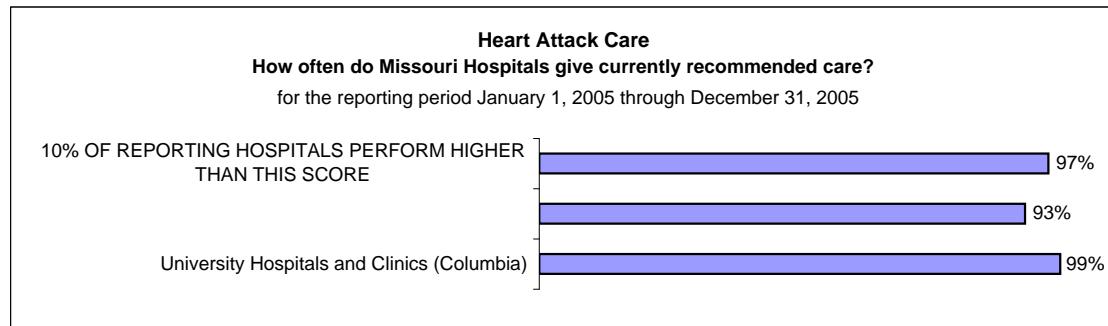

Program is found in the following core budget(s): University of Missouri Hospitals and Clinics

6. What are the sources of the "Other " funds?

N/A

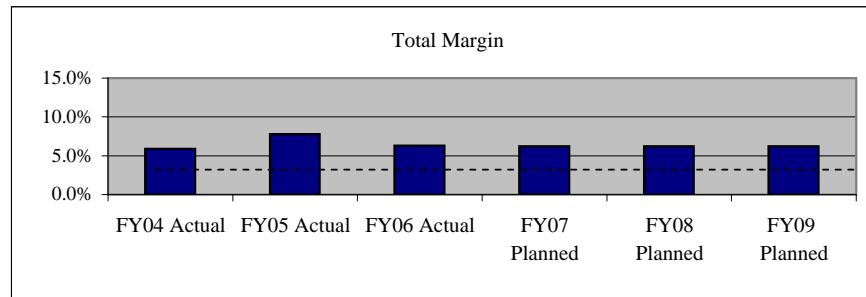

7a. Provide an effectiveness measure.

The leading cause of death in Missouri is heart disease (CDC/NCHS, National Vital Statistics System). The accompanying graph, provided by the Missouri Hospital Association, shows the percentage of times hospitals gave currently recommended care for patients with heart attacks from January 1, 2005 through December 31, 2005. A higher percentage indicates hospitals provided the recommended care more often. University Hospitals and Clinics was tied with one other hospital for the highest rating in Missouri.

7b. Provide an efficiency measure.

The efficiency of University Hospitals and Clinics is best measured by its Total Margin, which is the percentage relationship between Net Income and Net Operating Revenues before appropriation and before one-time adjustments. A national benchmark for Total Margin is the average of A-rated hospitals using national bond rating agency data. At the current time, the A-rated average (the dashed line on the accompanying graph) is 4.2 percent.

7c. Provide the number of clients/individuals served, if applicable

The accompanying graph depicts the historical and projected average daily inpatient census for University of Missouri Hospitals and Columbia Regional Hospital.

7d. Provide a customer satisfaction measure, if available.

The overall patient satisfaction can be judged by using the overall percentage good and very good as reported by Press, Ganey Associates INC. These numbers are derived by an overall composite of all questions on all survey instruments for all services at University Hospitals and Clinics and Columbia Regional Hospital and Clinics.

3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.	
The cost to deliver services to the public continues to rise. One example is significant increases in the cost of staff benefits and insurance. There are also fixed cost increases associated with utilities, medical equipment, pharmaceuticals, and supplies and services. The University of Missouri Hospitals and Clinics have aggressively controlled costs and enhanced revenues. However, lack of additional funding removes the ability of the University Hospitals and Clinics to continue to provide the same level of services for the citizens of Missouri as currently provided.	
4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)	
The University of Missouri Hospitals and Clinics will require funds to offset the rising costs of healthcare.

PROGRAM DESCRIPTION

Department of Higher Education

Missouri Rehabilitation Center

Program is found in the following core budget(s): University of Missouri - Missouri Rehabilitation Center

1. What does this program do?

The Missouri Rehabilitation Center (MRC) is a 124-bed rehabilitation hospital recognized as a leading hospital for physical medicine and rehabilitation throughout the Midwest. Comprehensive services include both inpatient and outpatient programs and specialized treatment for traumatic brain injuries, strokes, spinal cord injuries, comprehensive physical rehabilitation, cardiac rehabilitation, substance abuse rehabilitation, and orthopedic injuries as well as tuberculosis and other pulmonary conditions.

Extensive efforts are made to help patients reach their fullest physical potential and to develop self-help/care skills. A Transitional Living program consisting of dormitory living and a progression to residential living is provided. Approximately 85 percent of the Center's patients have limited or no financial resources to pay for these services.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

In 1996, state legislation transferred responsibility of the state-run hospital to the University of Missouri Health Care. The statutory purpose can be found in 199.010-199.270 RSMo.

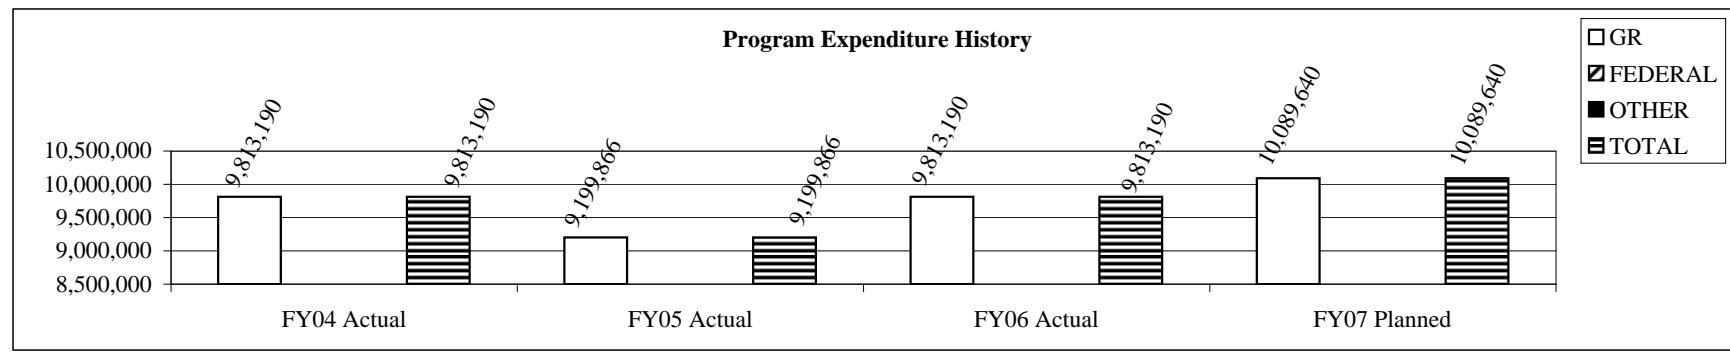

3. Are there federal matching requirements? If yes, please explain.

No

4. Is this a federally mandated program? If yes, please explain.

No

5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year

7a. Provide an effectiveness measure.

The clinical effectiveness of rehabilitation units like MRC may be best measured by using a standard Functional Individual Movements (FIM) score. The FIM score measures the patient's ability to perform activities of daily living. The accompanying graph depicts the average change in FIM score from admission to discharge, compared to the current national benchmark of 26.7.

7b. Provide an efficiency measure.

The efficiency of MRC is best measured by its Total Margin, which is the percentage relationship between Net Income and Net Operating Revenues before appropriation and before one-time adjustments. A national benchmark for Total Margin is the average of A-rated hospitals using national bond rating agency data. At the current time, the A-rated average (the dashed line on the accompanying graph) is 4.2 percent.

7c. Provide the number of clients/individuals served, if applicable

The accompanying graph depicts the historical and projected average daily inpatient census for Missouri Rehabilitation Center.

7d. Provide a customer satisfaction measure, if available.

The overall patient satisfaction can be judged by using the overall percentage good and very good as reported by Missouri Rehabilitation Center's patient satisfaction survey process. The percentages are a composite of all questions on the survey tool.

The MRC continues to incur higher costs to deliver its services to the public. One example is significant increases in the cost of staff benefits. There are also fixed cost increases associated with utilities, insurance, medical equipment, pharmaceuticals, and supplies and services. The lack of additional funding removes the ability of the MRC to continue to provide the same level of services for the citizens of Missouri as currently provided.

"Congenital" spinal cord abnormalities include birth defects affecting the spinal cord such as spina bifida. In addition to traumatic injuries to the spinal cord that lead to paralysis, "acquired" abnormalities could include Friedreich's ataxia, which manifests itself in teenage years and appears to run in families, and paralysis due to multiple sclerosis, polio, etc.</p>

Spinal Cord Injury

Program is found in the following core budget(s): University of Missouri - Spinal Cord Injury

7a. Provide an effectiveness measure.

The Spinal Cord Injury Fund Program (SCI) was established in FY02. During FY02 potential members of an SCI Advisory Board were identified, nominated and approved by the University of Missouri Board of Curators. In FY03 the Advisory Board developed a list of organizations and institutions conducting spinal cord injury and treatment research. The Board then released a Call for Proposal and developed a web page to assist applicants in preparing proposals. The program's success will depend on the number of proposals that are awarded each year.

PROGRAM DESCRIPTION

Department of Higher Education

Division of Four-year Colleges and Universities

Program is found in the following core budget(s): University of Missouri - Missouri Institute of Mental Health

1. What does this program do?

The MIMH is a mental health research and training institute operated by the School of Medicine of the University of Missouri – Columbia. Most faculty and staff of the Institute have offices on the grounds of St. Louis Psychiatric Rehabilitation Center (SLPRC), and provide evaluation, research and training support for the Department of Mental Health (DMH). SLPRC provides space and support services for the Institute. In addition, an important component of the training and research activity of the Institute is carried out on the Columbia campus of the University of Missouri in the Department of Psychiatry, where both space and administrative support services are provided by the University. This joint endeavor between the DMH and the University of Missouri has resulted in an organizational structure that ensures academic participation in research and education for the public mental health delivery system in Missouri.

To accomplish its statutory mission, the St. Louis component of MIMH is internally organized according to function: behavioral health research; continuing education for DMH and other public-sector mental health professionals; evaluation, policy and ethics; child and families; professional library support; and administration. Postdoctoral fellowships, internships and practica are offered for graduate students in psychology, social work and public health programs. Responsibility for residency training programs in psychiatry and clinical research into psychiatric illness rests with the Department of Psychiatry in Columbia.

MIMH is an active collaborative enterprise between the University of Missouri – Columbia and the DMH. This productive collaboration has resulted in a proud history of, and commitment to, leadership in public mental health policy, research and training.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Section 630.003, RSMo

3. Are there federal matching requirements? If yes, please explain.

No

4. Is this a federally mandated program? If yes, please explain.

No

5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.

6. What are the sources of the "Other " funds?

N/A

7a. Provide an effectiveness measure.

One important measure of effectiveness is the total number of new dollars MIMH brings to the University, the Department of Mental Health, and the state of Missouri each year. MIMH faculty wrote grants or provided technical assistance for state agencies and/or community groups in Missouri. Grants/contracts are normally awarded cyclically and multi-annually.

<u>FY04</u>	<u>FY05</u>	<u>FY06</u>	<u>FY07 Projected</u>	<u>FY08 Projected</u>	<u>FY09 Projected</u>

7b. Provide an efficiency measure.

One measure of efficiency is the total number of dollars awarded through grants and/or contracts to the Institute relative to the total number of state dollars provided each year by the taxpayers of Missouri. The table below indicates the number of dollars awarded to the Institute for each state dollar provided to the Institute.

<u>FY04</u>	<u>FY05</u>	<u>FY06</u>	<u>FY07 Planned</u>	<u>FY08 Projected</u>	<u>FY09 Projected</u>

7c. Provide the number of clients/individuals served, if applicable.

The Institute is not a patient service organization. It does, however provide continuing professional education to all levels of Mental Health professionals. The table below contains a count of the Mental Health professionals that receive training conducted by the Institute each year.

<u>FY04</u>	<u>FY05</u>	<u>FY06</u>	<u>FY07 Planned</u>	<u>FY08 Projected</u>	<u>FY09 Projected</u>
3,138	1,730	2,085	2,600	3,020	3,500

7d. Provide a customer satisfaction measure, if available.

We collect detailed evaluations on all speakers who participate in our continuing education activities. The satisfaction of agencies who seek us out for technical assistance with grant applications is evident in the high return rate for these groups (and the high number of successful grants written at the Institute). One measure of the satisfaction of the academic community with the work of the Institute is found in the number of articles accepted in peer reviewed scholarly journals (MIMH faculty have published more than 1,000 scholarly papers since the Institute was founded).

3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.									
<p>The MIMH continues to incur higher costs to deliver its services to the public. One example is significant increases in the cost of staff benefits. There are also fixed cost increases associated with utilities, insurance, medical equipment and supplies and services. The lack of additional funding removes the ability of the MIMH to continue to provide the same level of service for the citizens of Missouri as currently provided.</p>									
4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)									
<p>The MIMH will require funds to offset the effects of increased costs of operation.</p>

PROGRAM DESCRIPTION

Department of Higher Education

Missouri Kidney Program

Program is found in the following core budget(s): University Missouri - Missouri Kidney Program

1. What does this program do?

The MoKP carries out four basic functions: (1) provision of funds to dialysis and transplant facilities to assist patients with direct medical expenses after other funding sources (Medicare, Medicaid, private insurance, etc.) have been exhausted; (2) provision of funds to assist eligible patients with other expenses related to their care (transportation, take-home drugs, insurance premiums, etc.); (3) sponsorship of cost containment research and demonstration projects in an effort to enhance the cost effectiveness of dialysis treatment modalities and transplantation techniques; and (4) provision of patient and continuing professional education programs.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Chapter 172.875 RSMo

6. What are the sources of the "Other " funds?

None

7a. Provide an effectiveness measure.

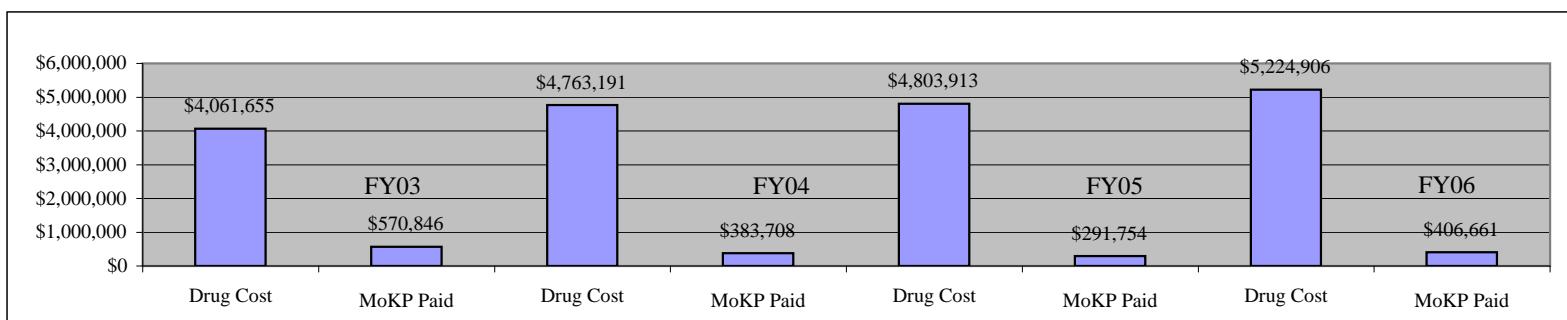

MoKP effectiveness is measured by the number of dollars of the appropriation going to reimburse patient care, education and research activities. MoKP expends in excess of 85 percent of its appropriation for patient care related activities.

7b. Provide an efficiency measure.

MoKP's single largest expense is the Centralized Drug Program which supplies needed pharmaceuticals to patients statewide via mail-order. Kilgore Medical Pharmacy was awarded the contract to provide this service, including the billing of 3rd party payors. MoKP assumes the role of payor of last resort for patients whose treatment is not covered by Medicare/Medicaid or private health insurance. The data below summarizes actual expenditures for the past four years. We have chosen not to attempt to project expenditures for FY07-FY08 because Medicare part D just became effective in the second half of FY06 and the impact of this federal program is as yet unknown.

7c. Provide the number of clients/individuals served, if applicable.

The table below lists the number of clients served or projected to be served in one or more of our programmatic entities. In the past three years we have sustained approximately \$433,000 in cuts to our base budget as part of statewide budget cuts. We have maximized our patient service delivery capabilities by micromanaging our heavy expense categories. Due to improvements in our database and changes to the transportation program, patients who were previously approved, but were inactive were removed from the program.

2,732	2,842	2,673	2,806	2,946	3,093

7d. Provide a customer satisfaction measure, if available.

MoKP has conducted a Patient Satisfaction Analysis program for seven years. Each month a list of patients to be renewed for benefits is submitted to the Director, who randomly picks 20 to 30 patients to receive the questionnaire. The questionnaire is mailed to the patient along with a stamped, self addressed envelope to a P.O. Box here in Columbia rented by MoKP under the name Customer Satisfaction Research Branch. The patient submits responses anonymously without signing the response form. We received a 100 percent favorable customer satisfaction rating. We have chosen not to attempt to project patient responses for the current or outlying years because we have no accurate predictive model for patient responses to questionnaires.

The MoKP continues to incur higher costs to deliver its services to the public. One example is significant increases in the cost of staff benefits. There are also fixed cost increases associated with insurance, medical equipment and services, pharmaceuticals, information technology, and supplies and services. The lack of additional funding removes the ability of the MoKP to continue to provide the same level of service for the citizens of Missouri as currently provided.

PROGRAM DESCRIPTION

Department of Higher Education

Division of Four-year Colleges and Universities

Program is found in the following core budget(s): University of Missouri - State Historical Society

1. What does this program do?

The State Historical Society of Missouri collects, preserves, makes accessible, and publishes materials pertaining to the history of Missouri, the Middle West, and the West.

The Society's quarters include a reference library, a newspaper and census library, photograph and map collections, an art collection and gallery, and the Western Historical Manuscript Collection, which is a joint repository of the Society and the University of Missouri. Use of these facilities is free and open to the public. In addition to these research facilities, the Society publishes a scholarly quarterly journal, the *Missouri Historical Review*, and a quarterly newsletter. The Society is a co-sponsor with the Western Historical Manuscript Collection - Columbia for National History Day in Missouri. The program annually attracts thousands of Missouri students in grades 6-12 to research historical topics based on an annual theme and prepare papers, performances, exhibits, or documentaries based upon their research. The Society also provides public programming for adults interested in historical research and Missouri history.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Chapter 183, RSMo

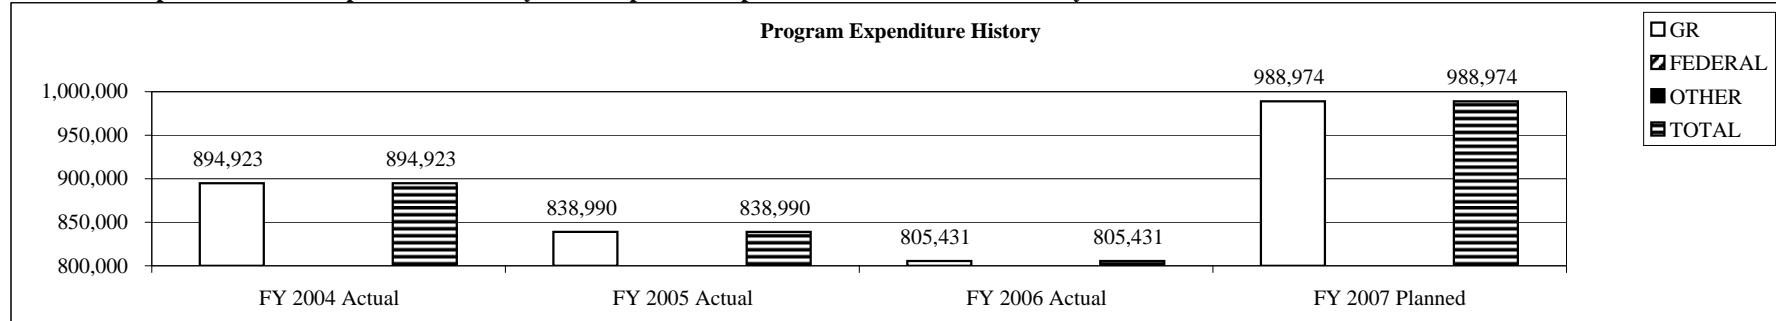

3. Are there federal matching requirements? If yes, please explain.

No

4. Is this a federally mandated program? If yes, please explain.

No

5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year

6. What are the sources of the "Other" funds?

The Society has a Membership Trust Fund that helps to support its mission.

3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.	
The State Historical Society of Missouri continues to incur higher costs to deliver its services to the public. One example is significant increases in the cost of staff benefits. There are also fixed cost increases associated with insurance, library materials, information technology equipment, and supplies and services. The lack of additional funding removes the ability of the State Historical Society of Missouri to continue to provide the same level of service for the citizens of Missouri as currently provided.	
To provide more equitable salary levels between State Historical Society employees and those persons holding similar positions in the University of Missouri or state government, additional funding is necessary to increase the core of salary and benefits for State Historical employees. This is the first year of a three-year plan.	
For enhancement of its publication program, the State Historical Society requests additional funding for an Assistant Editor position. This person will assist with the compiling, editing, proofreading, and design of all Society publications and will maintain contact with authors, write articles for the Society's newsletter, and fact check articles to be published in the Society's scholarly journal.	
To assist the State Historical Society in making records and services available to the public in a digital format, additional funding is requested for a Webmaster/Electronic Archivist position. This person will maintain and expand the Society's web site and assist in the appraisal and selection of electronic material from donors and vendors. He or she will help set electronic policy including data description, capturing, handling and accessing methods, data warehousing, digital security and encryption, all based on sound archival and information management principles. The Society's web site will become a richer resource for researchers and the public seeking information about the Society's holdings or topics in Missouri history.	
Significant enhancement to the State Historical Society's collections requires additional funding for an Oral Historian position. This person will strengthen the Society's oral history program by conducting interviews with public figures, by creating records where none exist and by augmenting the available written record. This person will plan, focus, research, conduct interviews, and prepare transcriptions for approval by the interviewee and for use by researchers. Transcriptions of the interviews will be available for use by scholars, students, and the public.

<p>4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)</p> <p>The State Historical Society of Missouri will require funds to offset the effects of increased costs of operation. \$42,822 is funding needed to keep up with increases in staff benefits and fixed cost increases associated with insurance, library materials, information technology equipment, and supplies and services. \$68,250 is funding needed to raise State Historical Society employees' salaries to the level of University of Missouri or state government salaries with the same job descriptions. \$146,464 is funding needed to create three new positions (Assistant Editor, Webmaster/Electronic Archivist, Oral Historian) within the State Historical Society to enhance its publication projects, website, and its collection of oral history transcriptions of interviews with public figures.</p>

NOTES:

PROGRAM DESCRIPTION

Department of Higher Education

Division of Four-year Colleges and Universities

Program is found in the following core budget(s): University of Missouri - State Seminary Fund

1. What does this program do?

This program provides income for the general operation of University of Missouri College of Agriculture and School of Mines and Metallurgy and for three scholarships that the curators added to the Seminary Fund in 1909. Funding for the investments that distribute to Agriculture and Mines & Metallurgy were derived from four sources - the First and Second Morrill Acts of 1862 which granted acreage to fund "at least one college to teach agriculture and mechanical arts", US Congressional reimbursement to the state of Missouri for subsisting troops during the Civil War, and fees from the sale or lease of railway equipment in 1895. Funding for the scholarships was from gifts/bequests to the University and per Board of Curators decision these were added to the Seminary Fund. Per state statute the Seminary monies belong to the University but the state must hold the securities.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Section 172.610, RSMo

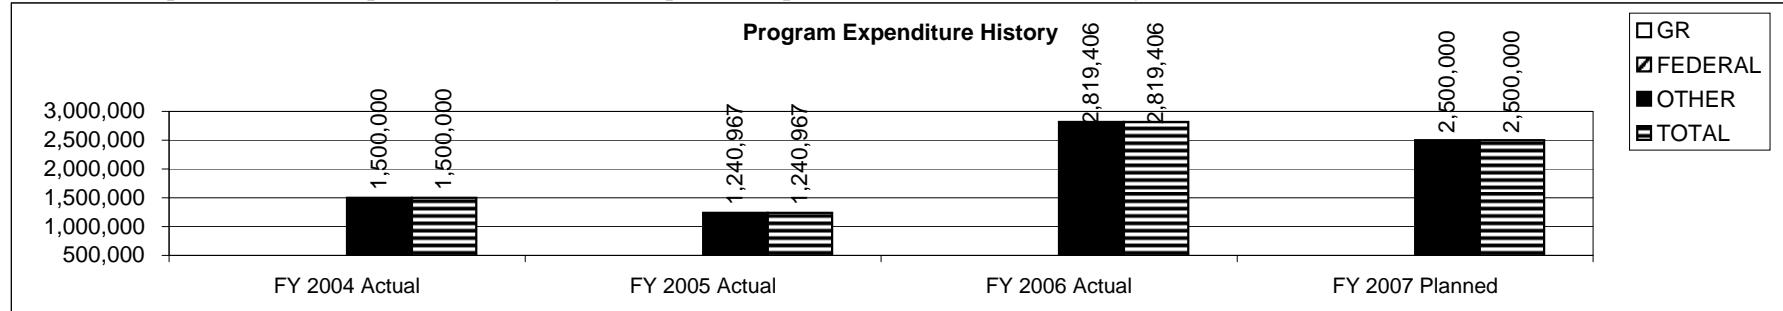

3. Are there federal matching requirements? If yes, please explain.

No

4. Is this a federally mandated program? If yes, please explain.

No

5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.

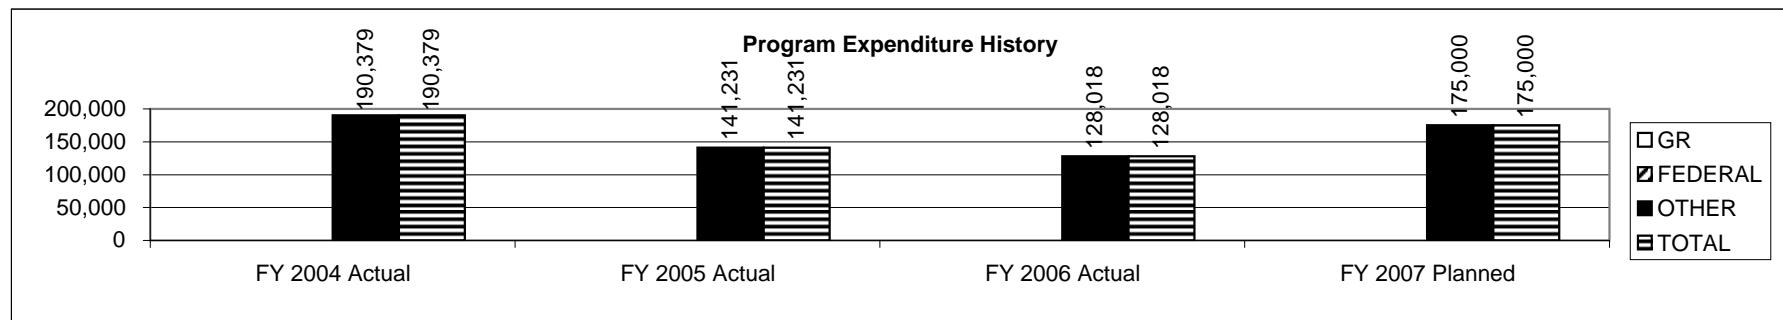

The expenditures in the graph above represent investments made by the University. As the investment instruments mature the University requisitions funds appropriated by the General Assembly for re-investment of investment instruments.

PROGRAM DESCRIPTION

Department of Higher Education

Division of Four-year Colleges and Universities

Program is found in the following core budget(s): University of Missouri - Missouri Telehealth Network

1. What does this program do?

The Missouri Telehealth Resource Center (MTRC) is a telehealth project originally funded by a one-time appropriation from the state of Missouri (\$3.4 million tobacco settlement dollars). The MTRC is a major component of the Missouri Telehealth Network (MTN) and is designed to provide the tools and training necessary for communities to develop and implement successful telehealth programs. MTN has been funded by the Federal Health Resources and Services Administration's Office for the Advancement of Telehealth (OAT), the University of Missouri Health Care, and rural MTN sites. The federal grant funding for the project has expired and the one-time appropriation from the state will end at June 30, 2007. Permanent continuing funds are needed to support the core functions of this program.

The Missouri Telehealth Network (MTN) exists to enhance access to care to people in underserved areas of Missouri. Our mission includes disaster preparedness efforts related to bioterrorism in the even of an attack both foreign and domestic. Our Area Health Educational program provides educational opportunities for healthcare providers, and offers research opportunities to clinicians wanting to study telehealth. The MTN uses a semi private network using the Internet Protocol (IP) to deliver two way interactive audio and video for clinical encounters, and data transfer for teleradiology and other store and forward services. Services have been provided in more than 15 different medical specialties, primarily radiology, mental health, dermatology, and cardiology. More than 11,000 interactive video encounters and 57,500 teleradiology exams have been conducted.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

One-time state appropriation was awarded via HR14. HR14 was approved by the legislature and signed by the Governor in 2001.

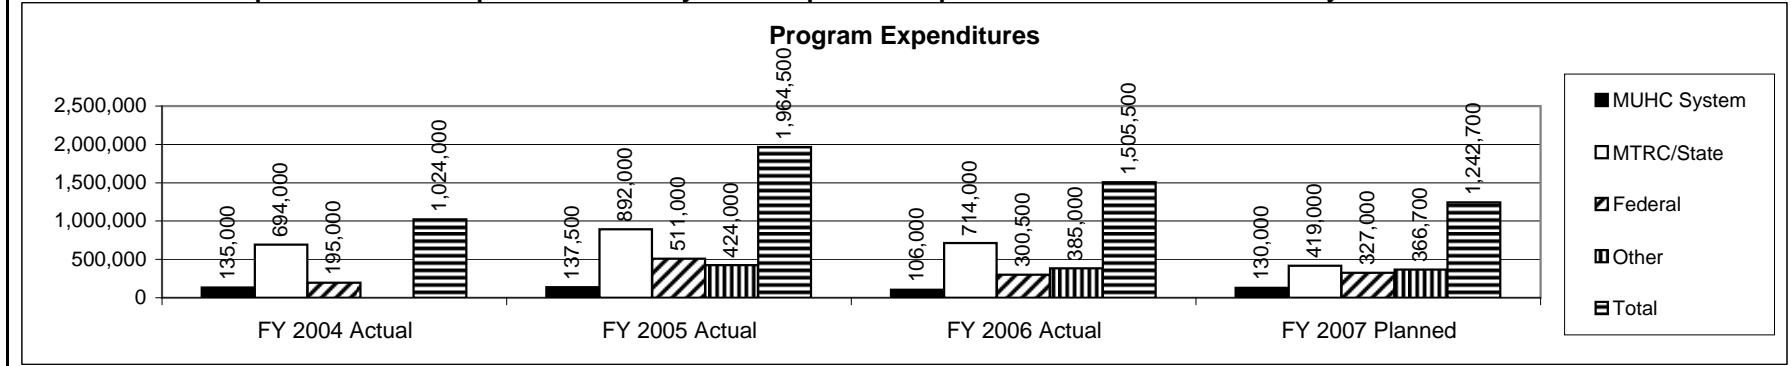

3. Are there federal matching requirements? If yes, please explain.

No federal matching requirements.

4. Is this a federally mandated program? If yes, please explain.

This is not a federally mandated program.

5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.

PROGRAM DESCRIPTION

Department of Higher Education

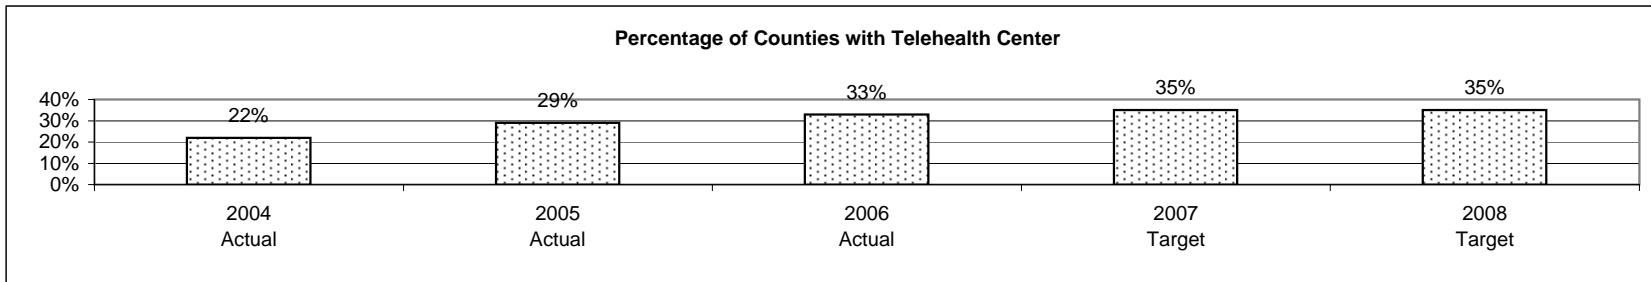

Division of Four-year Colleges and Universities

Program is found in the following core budget(s): University of Missouri - Missouri Telehealth Network

6. What are the sources of the "Other" funds?

The source of other funds supporting the MTN includes those provided by University Hospitals and Clinics and University Physicians (MUHC System), Federal grants (OAT FY03-05; DHHS Bioterrorism FY05-07), Mo Primary Care Assn - Bioterrorism (FY05-07), and rural MTN sites.

7a. Provide an effectiveness measure.

7b. Provide an efficiency measure.

Telehealth is reducing staff and transportation costs at the newly installed Missouri Habilitation Center (MHC) at Marshall, MO. It is estimated that each transport to MU from MHC costs the state funded MHC more than \$300 per patient. Equipment was placed at MHC in 2004, and to date over 322 trips have been avoided, resulting in a savings to Missouri taxpayers of over \$100,464. Savings are significant, but equally important is the improved quality of care as a result of the direct contact between the physician and the patient's care providers at the time of the visit. Similar potential for savings exists at other state funded sites.

Under a pilot program with Medicaid between 9/1/04 and 6/30/05 it is estimated that MTN saved the Medicaid program \$29,000 in transportation charges on only 116 cases in 20 Missouri counties. This is calculated by using the rounded average cost of transportation (\$250) per Medicaid patient multiplied by the 116 cases. Again, a proportionally larger recurring savings potential exists with the full implementation of the MTRC project and Medicaid's expansion of eligible services.

Rural healthcare economies benefit from the increased services created through the use of the telehealth network. When specialists at the University provide services via the network they utilize the services of rural labs, radiology departments and pharmacies at the patient's location.

Patients and family members also benefit through reduced travel costs, and time away from work or school when a medical problem can be appropriately handled via a telehealth visit. Such efficiencies keep monies in the local (rural) area.
